Membership List

1 November 1965

The names of members are arranged alphabetically. All reside in Michigan, unless another state is given. The special interests of each member are indicated, where these are known. Since virtually all members indicated a general interest in insect taxonomy, collecting, and biology, these are omitted from the interest listing.

The names of Active Members are in capital letters, while the names of Student Members are in lower case. There are no Sustaining or Honorary Members.

The postal ZIP code is given where it is known. If your ZIP code is not listed, please notify the Executive Secretary immediately, since the ZIP code is required on our mailings.

Changes of address should be sent to the Executive Secretary. Much time, money, and postage are wasted in the attempt to locate "lost" members.
